## EDUCATION

Degree/Grade	Institutions	Score
B.tech(IT)	KIET Group of Institutions	I-sem :- 8.91 SGPA II-sem :- 9.1 SGPA
Senior secondary (pre-Engineering)	Renaissance School (CBSE)	78% (2019)
Secondary (High School)	Renaissance School (CBSE)	10.0 CGPA (2017)

## EXPERIENCE

### yourFirstAd - Internship (Dec 2020 - Feb 2021)

In this Organisation, I worked on creating a platform that is a sort of influencer marketing where people can find creators and brands based on their niche. Here the tech stack I have used is **React and firebase**.

### 21stCloud - Internship (Aug 2020 - Sept 2020)

21stCloud is an American startup where I've worked on creating a matrimonial web app as an intern for two months. Here I worked majorly on **nodejs and mongoDB**.

## PROJECTS

### Public-column React app — [Live Link](#)

This is the multi-user web app called public-column build using **React js**. This website contains the functionality where users can post their views in the form of images and users can comment and like/unlike the post based on their preference. This website is fully secured with the authentication of the **firebase**.

### Github users data — [Live Link](#)

In this web app, we can enter the username of any github user and the data(i.e Avatar, repositories, followers, etc) of that particular user will be fetched using **github API**. In this web app I've used **React**.
